

Management and Development for Health (MDH) is a non-profit organization in Tanzania that primarily aims to contribute towards addressing public health priorities through evidence based interventions and partnerships. MDH works in collaboration with the Ministry of Health, Community Development, Gender, Elderly and Children; as well as academic and non-academic institutions to address the problems of tuberculosis (TB), malaria, HIV/AIDS, nutrition, maternal and child health and to undertake initiatives to advance public health research, education, and services for improving the lives of people and communities. MDH is working with WHO Living study team in Nairobi to implement a clinical trial titled PROSPECTIVE STUDY OF LOPINAVIR BASED ART FOR HIV INFECTED CHILDREN GLOBALLY (LIVING) STUDY. (BRAND NAME: LIVING STUDY). This study is already going on in Amana and Temeke hospitals in Ilala and Temeke municipalities respectively. MDH is looking for two qualified persons to fill the position of study clinician who will provide quality and professional inputs toward the success of this study.
